January–February 2012

WHICH CAME FIRST? THE TRAIN OR THE EGGLINER?

ARISTO-CRAFT made trains first and then came upon the idea of using the two ends of a streamliner passenger car to make a TIQ (tongue in cheek) fantasy train. We showed these at consumer shows and the public went wild looking at these “toy-like” trains and paid no attention to our expensive scale models. We had a hit on our hands and have made a few dozen paint schemes already.

The ARISTO-CRAFT Eggliner is made with our very best motor drive and runs well on our metal track with our power supply. This limits the use to people that have G Gauge indoor or outdoor layouts and requires a large investment to get a layout going. The general public cannot enjoy this product and our goal is to make a “Toy” train that can be used in both the sophisticated market and by people that just want to have fun with this innovative concept.

To make this happen, we will make a low cost plastic track with

a roadbed for use on carpet or the floor directly and will power the trains by reliable battery power along with radio control. We have already designed the track and are awaiting quotes from Kadar in both a low cost styrene and an engineering plastic for outdoor use. We have designed a basic version of our hit REVOLUTION R/C train engineer and can add a simple receiver and battery pack to make this viable on the plastic-only track. Furthermore, we can make dummy units of un-powered cars with plastic wheels and can even make the powered unit with plastic wheels as well.

There is something magical about how people relate to the EGG as it is a symbol of life. Did humans evolve from egg layer species (as is most likely)? Is having eggs for breakfast typical for most of us? Do all children enjoy hunting for Easter eggs each spring? Do most students have a nurturing class by keeping an egg with them at all times and do most science classes have a parachuting

eggs demo? The answer is yes to all of these examples as well as the fact that an egg shape is a highly technical design that it respected for both practicality of function as well as beauty of design.

So...the idea is to make an Eggliner starter set with one powered “engine” and two “dummies” along with a 4’ diameter circle of track and an R/C controller along with a battery pack and receiver. In addition to the starter set we can make a version with one of our 20’ gondolas with a blow-molded egg carton inside to hold Easter egg tie dyed designs.

Eggs are as recognizable a design as the best-licensed item and are naturals for Easter, Christmas and Halloween. Below are some other themes that will be popular as well and can be collectible by holiday or by season. We have already done many real railroad names and many more of these can be done. However, it really speaks to the fantasy side

(Continued on page 2.)

WHICH CAME FIRST? THE TRAIN OR THE EGGLENER?

(Continued from page 1.)

and here are some ideas:

GARDEN CRITTERS: Lady bug, turtle, snail, frog, caterpillar, bunny, glowbug, mole, butterfly and grasshopper.

HALLOWEEN: Pumpkins, masks, witches, goblins, candles, jack-lanterns, hay-rides and harvest moon.

CHRISTMAS: Wreaths, gift packages, angels, nativity scenes, santa, evergreen trees, tree ornament varieties, sled, reindeers and a religious cross.

COUNTRY FLAGS: British, German, French, Italian, Brazilian, Mexico, Canada, U.S., Spanish, Russian, Australia and any other larger population segment in the U.S. or sales potential in those markets.

FAMOUS STRUCTURES: Statue of Liberty, Brooklyn Bridge, White House, Oval Office, Saint Louis Arch, Smithsonian, Lincoln Memorial, Empire State Building, Lincoln Center, Metropolitan Museum, Niagara Falls, Liberty Bell, Baltimore Harbor, Atlantic City, Las Vegas, Sphinx, Eiffel Tower and London Tower.

JUNGLE ANIMALS: Panther, Lion, Tiger, Zebra, Panda, Wildebeest, Moose, Teddy Bear, Giraffe and Elephant.

DOMESTIC ANIMALS: Cow, dog, cat, horse, sheep, pig, chicken and rooster. These are just initial ideas and can be added to infinitely and many other themes come to mind.

Motorized Eggliners will have a suffix of "M" and dummies will have a "D." while plastic wheeled powered units will have a "P," so we can make the same designs in a variety of configurations.

The D versions can even be used as a toy pushed item on the floor and can later even be motorized with a wind up motor and used with the plastic track too.

While we are now known to a small market as a hobby train producer we can build a new

generation of customers to graduate to our O and G trains as they mature.

Ceiling Hooks for Hanging Eggliner Setups

Hook, 4 Strips

- Damage-Free Hanging
 - Holds strongly • Removes cleanly
 - Easy to apply • Easy to remove
 - Works on a variety of surfaces—
- Weight Capacity: 7½ pounds; approximate size (L×W×D): 4¼×2×1⅜ inches
Rating: ★★★★★

These clips may be used on the ceiling to place a hanging layout and can be removed without any damage to the ceiling. Simply use a lightweight chain or rope on each side of where the track will be and use the chain to suspend the layout to the height desired. One foot from the ceiling will require a 30" (approx.) piece of chain.

We have trademarked the Eggliner name and all of the Egg variations.

All the best,

Lewis Polk ♦

How to Subscribe to Aristo-Craft G Gauge E-mails Only

Dear All,

To NOT get *Aristo* O gauge e-mails, you must *unsubscribe* from their e-mails as shown at the bottom of each e-mail. Then go back to the www.aristocraft.com home page and in the center of the page you will find a sign up box. Please enter your e-mail there and you will be sent to an interest page and only select ARISTO-CRAFT G gauge. From that point on you will never or rarely get O Gauge e-mails.

All the best,

Lewis & Scott Polk

PRESS RELEASE—January 2, 2011

Scott Polk Named President of Aristo-Craft Trains

Scott Polk, son of Fred Polk, former Executive Director of the Hobby Industry Association and grandson of Nat Polk, owner of Polk's Hobby as well as former President of Polk's Hobby, has been appointed the new President of Polk's Hobby, owner of ARISTO-CRAFT Trains.

Scott Polk spent 10 years at F.A.O. Schwarz and Build-A-Bear around the country before joining ARISTO-CRAFT as the Vice President of sales. Lewis and Maryann Polk are retiring after 40+ years running the former retail store on Fifth Avenue and then starting ARISTO-CRAFT Trains.

Scott is very computer-centric and will expand the use of the Internet with ARISTO-CRAFT Trains. Scott was born into the industry and has a full understanding of the traditions and likes of the hobbyist. The 70+ year history of Polk's is in good hands with Scott as he takes the helm. ♦

2012

Well, here I sit at the computer typing this to you. It is a few days **BEFORE** Christmas and you will be reading this **AFTER** New Years. I trust you had an exciting Christmas with your family and friends. I know the Hartman house is buzzing as well as rocking and rolling in excitement with the grandchildren. I made the decision to put up **TWO** Christmas Trees this year, one in the living room and one on the enclosed porch. Because of the 1-year-old grandson, I figured out I should put unbreakable ornaments on the trees, as he likes to 'investigate' anything new and if he likes it, he continues to 'investigate.' I was informed by my granddaughter (just turned 4) "Pappy, you have to put a train under **BOTH** trees. So, you guessed it, a train under **BOTH** trees. I must say my Western Maryland Consolidation looks and sounds great running under the tree. I see there is going to be a second run on the Consolidations and there will be another Western Maryland in the run. I will have to start saving my spare change to get ready to purchase one!

The **Spring East Coast Large Scale Train Show** is starting to take shape. As of today we have had eight vendors request additional space. We have one new vendor to the Spring

Show and have sent out show info to several other **NEW** vendors and some of the vendors from past shows that have not been there for awhile. The Spring Show signals the start of the "Gardening Season" and peoples' thoughts start to center around their garden railroads. It will be time to think about what needs replacement, what parts you will be needing to repair those items that will need fixing, and what **NEW** items you would like to add to your empire.

We are looking for people to present seminars at the show. If you have a suggestion as to a topic or if you have a desire to present a topic at the ECLSTS, please contact us at jjproductions@atlanticbb.net with your name, contact information and topic. I will see if we can find a time slot for you.

Also, don't forget to get your Show **PCC** at the show. Very colorful paint designs are available and the.

PCC has received rave reviews. *I feel certain this design will be very popular.* I don't think you can find a **NEW PCC** for \$200.00, so make sure you arrive early enough to get you own or get someone to purchase it for you. Remember, if you are looking for something for your display, you most likely will find it at the East Coast Large Scale Train Show. As I have always said, the East Coast Large Scale Train Shows are **MORE** than just train shows to buy things at. There are several different displays to get ideas from; manufactures will be there to answer your questions and one other thing I looked forward to each year—the friendship and exchanging of stories, photos, and ideas.

The spring show has the fund-raiser for the **Center for Missing and Exploited Children**. The donation of orphaned trains seemed to work very well. I am sure the "committee" for this fund-raiser will come up with something again. *Remember 100% of the funds raised for this function goes to the Center.* Trains, tools, chocolate, and videos were donated last year. I found something that I had been looking for on the Orphaned Trains table. I had been looking for a couple years for two box cars and I found one of them there. So you never know what will be found at the ECLSTS!

Remember, the ECLSTS is **THE** place to find your G Scale trains and accessories. All G Scale, lots of awesome displays, great seminars, and lots of information that is shared at these shows. If it was made for G Scale, most likely you **WILL** find it at the East Coast Large Scale Train Shows. As stated many times before and above, lots of friendships are formed at these shows. I hope to see you all there! – *Harry Hartman* ♦

New Cloud-Based Website Coming from Aristo-Craft in Early 2012

Dear All,

We have decided to go to *cloud computing* for 2012, with a fully integrated website and back office system. We will not have to worry as much about spammers, hackers or other virile website intruders, and our information will be more readable and act as a catalog as well as a conventional website. All stock information will be interactive with the site and is as up-to-date as it can be. Entry of data will be simultaneous to web publication.

All parts orders, and other forms of communication, will be confirmed by e-mail as well as tracking information included in the e-mailed invoice.

The photos will be thumbnails, but easily expandable to larger sizes and all photos in a category will be visible once the category is selected.

This will obviate the requirement that the user do extensive, and often frustrating, web searches.

We will have over 3,000 parts listed and they will be easily selected by category. You will be able to select between UPS, FEDEX and USPS—*foreign addresses and shipping will be accommodated.*

Furthermore, we intend to have an interactive front page, which will be easier for us to update and give you more timely information. We also intend to post some videos that will be of use for general information purposes. To date, this has only been available on our forum.

This all takes a lot of work, but it will give us added capabilities and a more enjoyable website for our *Aristonauts.*

Please remember that we have several years of help questions on our

**SPRING
ECLSTS

**Special Edition PCC Car for the
East Coast Large Scale Train Show
York, PA - March 23 and 24, 2012**

The Aristo-Craft Railroad Club: A Bit of History – Part 4

The ARISTO-CRAFT Railroad Club for 1999 came with 2 selections. You could choose the 1/29 scale version or the 1/24 scale version—you could also choose both offerings. Again, ARISTO-CRAFT called this the *Gold Membership*. For your membership, you received a certificate suitable for framing with your name and official club membership number with Lewis Polk signing each one. You also received a membership card, a catalog, and four *INSIDERS*. There was an added treat this year—with your membership, you received an official ARISTO-CRAFT pin.

Since there was a catalog for 1998 and 1999, no order blank was in the catalog for the Club in 1999. 1989 members received their renewal

on the lower left side of the car. It was a nice addition to the line of club cars today. I always like to use this car in my regular freight lineup as I always thought of it as another load of ARISTO-CRAFT Trains and ARISTO-CRAFT supplies being shipped to a dealer. Of course it looked good with all the other ARISTO-CRAFT Railroad Club Cars. I would take to them a local show and run them all together. If anything, I felt it created interest in the ARISTO-CRAFT Club because I had several at a show come up to me and say, “I didn’t know ARISTO-CRAFT had a club.” I always had a couple membership applications with me and would pass them out. I don’t recall if any of them joined but I enjoyed spreading the word.

The 1/24 scale membership came

notice in their quarterly mailings.

If you joined the 1/29 scale membership, you received a 40-foot box car painted in the Grey Track Maintenance Service colors which was a nice grey with the big RED ARISTO-CRAFT Trains diamond on the left side of the car and the Track Maintenance Service on the top half right hand side of the door. Under this logo was the lettering TOOL CAR. The yellow door really stood out. It came with the road number of 199 and the ART Number was 46099. It had the ARISTO-CRAFT built date

with a SURPRISE LOAD. When I received mine, it rattled BEFORE I opened it. At first I was worried that it was damaged in shipment, but once I opened the box, my fears were

put to rest. The car was a Delton Classic’s Coal Hopper. It came with a package of ART 29111B’s, metal wheels. That is what was making

the noise in the box. The 1/29 box car was the Tools Car and this hopper was labeled BALLAST SERVICE. It had a road number of 299 and had the ART number of 81499. You can find the ARISTO-CRAFT Trains red diamond on both sides of the car. The metal wheels were a nice surprise. I found that the Delton Classic line was starting to ‘grow on me.’ I liked the designs and they were the typical great ARISTO-CRAFT quality.

With the announcement of the C-16 locomotives being released and last year’s wooden caboose, I was hoping that a future release might be a C-16 loco with the Track Maintenance Service or the ARISTO-CRAFT Railroad logo. I would be able to build two different ARISTO-CRAFT Railroad Club Trains. But as time went on, that did not happen.

I still ran all my club cars together at shows I would attend. I remember running some of my club cars at the Martinsburg Mall and also for the Railfest in Cumberland. Both shows drew questions about the ARISTO-CRAFT Railroad Club Cars.

Stay tuned as in 2012 the ARISTO-CRAFT Railroad Club will bring out another power unit which has turned out to be a very much sought after piece. – Harry Hartman ♦

Parts List • January–February 2012

Item	Description)
PACIFIC PARTS	
P21400-137 . . .	Rh Rear Cross Head Support
P21400-04 . . .	Boiler Hand Rail
P21400-11 . . .	Steam Dome
P21400-137 . . .	Sand Dome
P21400-129 . . .	Crosshead Mount
P21400-130 . . .	Piston Rod
P21400-138 . . .	L.H. Crosshead Mount
P21400-139 . . .	R.H. Cross Head Arm
P21400-140 . . .	L H Cross Head Arm
P21400-17 . . .	Rh Car Entrance Door
P21400-183 . . .	Fly Wheel
P21400-54 . . .	Draw Bar
P21400-136 . . .	Short&Long Arm Screw
P21400-141 . . .	Cross Head Screws
P21400-31 . . .	Pilot Mount Retaining Screw
P21400-50 . . .	Brake Retaining Screw
P21400-51 . . .	Rh Brake Retaining Screw
P21400-55 . . .	Lh Rear Brake
P21400-56 . . .	Draw Bar Washer
P21400-57 . . .	Drawbar Spring
P21400-65 . . .	Forward Piping
P21400-71 . . .	Lh Piping
P21400-81 . . .	Pony Truck Wheels
P21400-96 . . .	Spring
P29132-168 . . .	Worm
P29132-169 . . .	Helical Gear
P21400-68 . . .	Air Pump Retaining
P21400-02 . . .	Boiler Shell
P21400-03 . . .	Cab
P21400-47 . . .	Motor
P21400-164 . . .	Front&Rear Driver Wheels
P21400-165 . . .	Center Drive Wheels
P21400-09 . . .	Handrail Stanchions
P21400-106 . . .	Marker Light Bulbs
P21400-107 . . .	Head Light
P21400-114 . . .	Smoke Pipe Retainer
P21400-115 . . .	Smoke Stack
P21400-12 . . .	Whistle
P21400-133 . . .	Cross Head Upper Side
P21400-134 . . .	Short Arm
P21400-135 . . .	Long Arm
P21400-142 . . .	Cross Head Forward Mount
P21400-151 . . .	Rh Reverse Cam
P21400-152 . . .	Lh Reverse Cam
P21400-163L . . .	Lh Brake Shoe
P21400-93 . . .	Pilot Pivot
P21400-103 . . .	Smoke Box Door
P21400-104 . . .	Marker Lights
P21400-14 . . .	Bell Harp
P21400-144 . . .	Main Eccentric Crank
P21400-148 . . .	Rh Reverse Mount
P21400-149 . . .	Lh Reverse Mount
P21400-15 . . .	Bell Harp
P21400-22Q . . .	Cow Catcher

Item	Description)
MALLET PARTS	
P21600-12 . . .	Smoke Box Door
P21600-101 . . .	Drive Box Pivot
P21600-102 . . .	Bolster
P21600-103 . . .	Bolster
P21600-35 . . .	Safety Valve
P21600-39 . . .	Cab Vent
P21600-63 . . .	Cab Lower Support
