Kids will be at the controls when model trains zoom around the tracks during Train Days, 11 a.m.-4 p.m., Saturday, Sept. 24 and Sunday, Sept. 25, at Lambs Farm, 14245 W. Rockland Road, Libertyville. "Our friends from Valley Model Railroads are going to set up trains in the Career Services Center," said Communications Coordinator Jackie Rachev. Young visitors will take turns operating them.

Other activities will keep kids busy while they're waiting for their turn at the controls. They can get temporary tattoos and try sand art.

"We're also going to have little train depot stops at each of the businesses, where the children can pick up things like coloring sheets or little train conductor hats or cups," Rachev said. Some of the items are free; there's a nominal charge for others.

"It's a great day, that is all about trains," Rachev said. She added, "Children of all ages love trains."
